

Working together for a safer London

Sanderstead Safer Neighbourhood Team

The Sanderstead SNT (safer neighbourhood team) conducts what we call drop-in surgeries within the ward. Drop-in surgeries involve the Sanderstead SNT interacting with the public and talking about any issues or concerns they may have. It is also a chance to meet you and for you to meet us your safer neighbourhood team.

We give out various leaflets and our SNT details to the public for their awareness of any problems within the Sanderstead ward. The leaflets that are given to the public are prevention leaflets and about your SNT team.

Date of the next surgery is:

**Wednesday 28th November 2018
12 noon at Sanderstead Library**

We want to conduct more surgeries at more locations within the Sanderstead ward, if you know of any venues in the area where you think we could conduct our drop-in surgeries, please let us know

The Sanderstead safer neighbourhood team are here to help with any issues or concerns you may have within the Sanderstead ward so please contact us.
